### Seminar Report 2018-19

### Seminar on 'Air Pollution' organised in association with Public Concern for Governance Trust (PCGT)

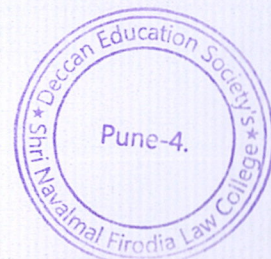

The one day seminar on Rivers in Pune: Policies and Issues held on 8<sup>th</sup> Jan, 2018 narrates the story of the rivers in Pune and explain the history, geography, ecology and current state of the river in a simple pictorial form. As the college is associated with PCGT from many years, this year they organised the Seminar on Air Pollution on 28th January, 2019. The resource person for the same was Dr. Sandeep Salvi, Director CRF who had a session on Air Pollution and then had an interaction with students moderated by Mr. Satish Khot, member of PCGT.

Report on seminar on air pollution: Environmental changes are caused by the natural or artificial content of harmful pollutants and can cause instability, disturbance, or adverse effects on the ecosystem. Earth and its environment pose a more serious threat due to the increasing pollution of air, water, and soil. Environmental damage is caused by improper resource management or careless human activities. Therefore, any activity that violates the original nature of the environment and leads to degradation is called pollution.

We need to understand the origin of these pollutants and find ways to control pollution. This can also be done by raising awareness of the effects of pollutants. Air pollution is any physical, chemical, or biological change in the air. A certain percentage of the gas is present in the atmosphere. Increasing or decreasing the composition of these gasses is detrimental to survival. This imbalance in gas composition causes an increase in global temperature which is called global warming.

Air pollution can result in poor air quality, both in cities and in the countryside. Some air pollutants make people sick, causing breathing problems and increasing the likelihood of cancer. Some air pollutants are harmful to plants, animals, and the ecosystems in which they live. Statues, monuments, and buildings are being corroded by the air pollutants in the form of acid rain. It also

*(Signature)*

damages crops and forests, and makes lakes and streams unsuitable for fish and other plant and animal life.

We can prevent pollution by utilizing raw materials, water energy, and other resources more efficiently. When less harmful substances are substituted for hazardous ones, and when toxic substances are eliminated from the production process, human health can be protected and economic wellbeing can be strengthened.

The government has put restrictions on the amount of fossil fuels that can be used as well as restrictions on how much carbon dioxide and other pollutants can be emitted. Although the government is attempting to save our environment from these harmful gasses, it is not sufficient. We as a society need to keep the environment clean by controlling the pollution of air.

## Seminar Report 2018-19

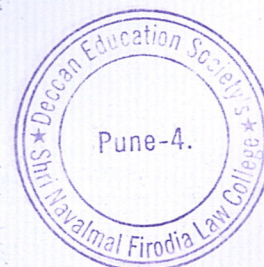

### National Seminar on “Industrial Design in the Legal Regime of Intellectual Property Rights”

A ‘Judgement’ constitutes an important part of the Justice delivery system and therefore an in-depth analysis of it is inevitable. It helps to understand the viewpoint of the jurists in interpreting a particular provision of a statute or suggesting modifications for the same. It is one of a kind competition held on a national level.

This is the 9th edition of the judgement analysis competition which will provide a unique opportunity to all the participants to test their legal acumen. Judgements for Analysis: Micolube India Ltd. v. Rakesh Kumar Reckitt Benckiser India Ltd. v. Wyeth Ltd. Guest of Honour & Key Note Speaker for Inaugural Function was Dr. Mohan Dewan, Advocate, Patent & Trademark Attorney, R. K. Dewan & Co., Pune Theme of the National Seminar The theme of this year’s edition of the national seminar is intellectual property rights in general and Industrial Designs in specific.

A National Seminar was conducted on ‘Industrial Design in the Legal Regime of Intellectual Property Rights. It was attended by students of Law Colleges, Universities and students from non-law categories. It was also attended by the law faculties of various colleges. First Resource Person was Dr. Gouri Ashok Gargate, Faculty, Rajiv Gandhi School of Intellectual Property Law, IIT Kharagpur delivered session on ‘Industrial Design – Create, Protect & Monetize’. Second Resource Person was Mr. Vijay Pal Dalmia, Advocate, Vaish Associates Advocates, Supreme Court of India, New Delhi delivered session on ‘Designs – Law, Enforcement & Monetization’. Third Resource Person was Mr. Shreedhar Parundekar, Managing Director, Brand Defence Consulting Pvt. Ltd., Pune delivered session on ‘Enforcement Aspect of Designs through Indian Customs’. Chief Guest for Valedictory Function was Prof. Ganesh Hingmire, Chairman, Great Mission Group Consultancy, Pune who delivered Valedictory speech on importance of intellectual property rights and career prospects of it.
