Webinar Report 2021-22 Webinar for Post-Graduation Department on Cyber Security

Cyber Security has become the need of the hour post technological changes in the society. The Webinar intended to create awareness amongst our students about challenges surrounding the cyber world. We were graced by some of the legal luminaries in the field.

Adv. Pushkar Patil, District and Sessions Court, Pune addressed the students on a very innovative and upcoming area i.e. "Cryptocurrency in India: The past, the present and the uncertain future". He was well versed with the practicalities of the subject. He differentiated between Traditional currency and digital currency and other related issues. He also talks about the legality of cryptocurrency in India as well as compared it with other Nations. He also talks about the dark side of cryptocurrency and also counts its benefits.

Our Second Speaker Adv. Kaustubh Moghe, District and Sessions Court, Pune excellently covered the topic, "Should the consumer protection aspect of e - commerce consider data protection?" He spoke about the dos and dont's relating to online purchase. He also talks about caveat emptor means buyer beware as to consumer have to take care while purchasing the products or service online as many of the fake companies are not traceable and foreign company which is not registered so, for them tracing that company to come the consumer court is near to impossible.

Adv. Yashwant Thorat, District and Sessions Court, Pune shared his views on the topic "Data Privacy and Social Media". He brought to light the dark side of the otherwise fascinating social media. He started with the benefits of social media nowadays like LinkedIn etc, but also warn us that whatever you put on internet exits there for lifetime even if you delete the post it leave behind its fingerprint. So beware what you are posting on internet as for todays business Data is new gold and the one who have the data is winner of the game and it can be used anywhere in the world for any purposes. So to protect your fundamental right of right to privacy the one must need to take precautions for the same.
